PROJECTS

Portfolio - React, TypeScript & Tailwind CSS

A personal showcase built to highlight my skills, projects and experience.

- Clean, modular code structure demonstrating best practices in component design
- Implemented dynamic routing using React Router

Taskly - React, TypeScript & Tailwind CSS

A role-based task management app with separate admin and employee dashboards.

- Mobile-first, responsive layout ensuring accessibility on any device
- Streamlined task assignment and tracking with role-specific features

Flowlance - React, TypeScript & Tailwind CSS

A Freelancer Dashboard for managing projects, clients and finances.

- Integrated interactive Chart.js visualizations and a drag-and-drop Kanban board
- Utilized Material UI for clean, structured data tables

PokèOS - React, TypeScript & Tailwind CSS

An interactive Pokémon web app using the Pokémon API.

- Employed asynchronous programming (Promises & async/await) for efficient data loading
- Implemented robust error handling and caching to optimize API performance

WORK HISTORY

Bartender & Waiter, Zizzi (2024 - Current)

Senior Team Member, Greggs (2023 - 2024)

Server & Waiter, Tawa House (2017 - 2017)
